## Important: Safety information about video games

### About photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause photosensitive epileptic seizures while watching video games. These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

**Immediately stop playing and consult a doctor** if you experience any of these symptoms. Adults who allow teenagers (or children) to play the games should watch for or ask their children about these symptoms as they are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by playing in a well-lit room and by not playing when you are drowsy or fatigued. If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

### Play safely

Take a break from playing games at least every half hour. Stop playing immediately if you begin to feel tired or if you experience an unpleasant sensation or pain in your hands and/or arms. If the condition persists, consult a doctor. Use of vibration can aggravate injuries. Do not turn vibration on if you have any ailment in the bones or joints of your fingers, hands, wrists, or arms.

## CARE AND MAINTENANCE

Your game card and game deck are products of superior design and craftsmanship and should be treated with care. The suggestions below will help you protect your warranty coverage and enjoy your game for many years.

- Keep the game card and game deck dry. Precipitation, humidity and all types of liquids or moisture can contain minerals that will corrode electronic circuits.
- Do not use or store the game card and game deck in dusty, dirty areas.
- Do not store the game card and game deck in hot areas.
- Do not store the game card and game deck in cold areas. When the game deck returns to its normal temperature, moisture can form inside the game deck and damage electronic circuit boards.
- Do not attempt to open the game card or game deck other than as instructed in the user guide.
- Do not drop, knock, or shake the game card and game deck.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the game card or game deck.
- Keep the game card out of the reach of small children.

All of the above suggestions apply equally to your game card, game deck, and any enhancement.

## GAME MODES

Note: Most of the game modes in *SSX™ Out of Bounds* are self-explanatory and are not covered in this manual. Exceptions are listed here.

### Single Event

Practice your moves in a Single Event Race or in Slopestyle and Back Country events before taking on the mountain.

### Conquer the Mountain

Defeat the competition and conquer the mountain! Participate in Race, Slopestyle and Back Country events. When you complete an event you can move on to new tracks and rewards. When a track is unlocked in Conquer the Mountain mode, it becomes unlocked for all riders in Single Event mode. Note: Playing in Conquer the Mountain mode is the only way to unlock tracks and acquire the cash needed to advance your characters.

### Race

This mode is all about finding the fastest line down the track. Pull off tricks while you race and take advantage of your adrenaline boost to increase your speed. Watch out for other riders—they're not afraid to get physical to obtain an advantage. Find the shortest line down the track in the two qualifiers to make it to the final round.

### Slopestyle

Slopestyle is a freestyle event in which you find the best trick line down the mountain. You are judged on the tricks and maneuvers you pull off during your run. Players compete for the biggest air and most trick points. Find the best line with the most trick multipliers and score more points than your opponents over two qualifier rounds to make it to the final.

### Back Country

Success in race and competition events will earn you enough cash to unlock the Back Country Challenge: a showdown against your rival.

## Multiplayer Mode

### Via Bluetooth® Wireless Technology

Connect and play with or against other players. Up to four players can compete. Each player must have a copy of *SSX™ Out of Bounds* to play a multiplayer game. Player 1 will create a game, players 2 to 4 will join that game using the settings defined by player 1. No progress will be saved.

## N-Gage™ Arena

Show off your best lines and tricks on N-Gage Arena.  
Connecting to N-Gage Arena is easy:

Select N-Gage Arena from the Main menu.

Choose one of the N-Gage Arena features.

You can upload a previously saved race or choose to compete in a race already posted by another player.

After the race, you will be returned to the Main menu where you can choose another race.

### Shadow Racing

Test your mettle against the best race lines from other players on N-Gage Arena.

### High Scores

Upload your high scores and best times to see who really rules the slopes.

### Exclusive Content

N-Gage Arena offers exclusive boards and outfits with advanced attributes. These are available for download—but you've got to earn them first!

## TIPS AND TRICKS

### Trick Multipliers

Trick multipliers are objects on the track that you collide with. When you collide with these items you will get a multiplier added to your next trick (2x, 3x, 5x and 10x). Perform a trick with the trick multipliers to generate incredibly high scores.

### Combos

Successfully trick on and off rails and objects to produce valuable combos.

### Tricks = Boost

Even while racing you can pull off challenging tricks and combos to raise your Boost meter and accelerate past opponents.

Remember, Tricks = Boost and Boost = Speed.

### ÜBERs

An ÜBER is an over-the-top trick. A Super ÜBER is a level-two ÜBER. A Full Super ÜBER gives you maximum adrenaline to the end of the event. When your Boost meter is full, the flashing top will indicate you are in the ÜBER state. During this short time, executing any grab and tweak (press **Key 5** while you're in the air) will perform that grab's ÜBER. Don't forget, the grab keys are **Key 1, Key 2, Key 3, Key 4, Key 6, Key 8** and **Key 9**. Get BIG air to pull off these tricks!

### Triumphing Over Your Opponents

Your competitors can be aggressive. Use **Key 4** and **Key 6** to push and punch back. Knockdowns will be rewarded with a full Boost bar.

## SAVING, LOADING AND DELETING

### Saving

When playing in Conquer the Mountain mode, your game is saved automatically. *SSX™ Out of Bounds* auto-saves after every competition.

### Loading

When re-entering Conquer the Mountain mode, the previously saved game is loaded automatically.

### Deleting

To delete the saved game, go to the Options menu, select Delete Career then press **Key 5**. Choose Yes at the prompt.
